TITLE OF INVENTION: PROCESS FOR THE CREATION OF FUZZY COGNITIVE MAPS FROM MONTE CARLO SIMULATION GENERATED META MODEL.

I	APPLN. TYPE	SMALL ENTITY	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
	nonprovisional	YES	\$755	\$300	\$0	\$1055	08/13/2009

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE

Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

or <u>Fax</u> (571)-273-2885

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 124 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 124 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

DETAILED ACTION

Reasons for Allowance

The claimed invention is inherently practiced on a computer as shown in the Specification, page 1, second full paragraph, where it recites:

Applicant uses a process to identify those factors that have a significant contribution to the behavior of a phenomenon <u>by using a **computer** to create a fuzzy cognitive map (FCM)</u>.

Therefore, the claims are statutory.

Claims 14-46 are allowed.

The following is an Examiner's statement of reasons for allowance: Claims 14-46 are considered allowable since when reading the claims in light of the specification, as per MPEP §2111.01, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in independent claim 14, including: a "generation" of values for the trial input variables (as defined at page 4, last full paragraph and at page 5, first full paragraph and at page 6, first three paragraphs and at page 8, last full paragraph), a "solution" to produce a meta model (as defined at page 3, first full paragraph and at page 5, last full paragraph

Art Unit: 2129

and at page 6, second full paragraph and at page 8, last full paragraph), an "identification" of fuzzy level placement (as defined at page 5, last full paragraph and at page 6, first two full paragraphs and at page 9, first full paragraph), a "categorizing" of fuzzy level placements as positive or negative correlation (as defined at page 1, first full paragraph at page 3, second paragraph and at page 6, middle two paragraphs and at page 7, last two paragraphs), a "categorizing" of the magnitude of fuzzy level placements when there are more than two fuzzy level boundaries (as defined at page 4, last paragraph and at page 5, last paragraph).

Further, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in independent claim 29, including: a "generation" of values for the trial input variables (as defined at page 4, last full paragraph and at page 5, first full paragraph and at page 6, first three paragraphs and at page 8, last full paragraph), a "solution" to produce a meta model (as defined at page 3, first full paragraph and at page 4, last full paragraph and at page 5, last full paragraph and at page 6, second full paragraph and at page 8, last full paragraph), an "identification" of fuzzy level placement (as defined at page 5, last full paragraph and at page 6, first two full paragraphs and at page 9, first full paragraph), a "categorizing" of fuzzy level placements as positive or negative correlation (as defined at page 1, first full paragraph at page 3, second paragraph and at page 6, middle two paragraphs and at page 7, last two paragraphs), a "categorizing" of the magnitude of fuzzy level placements when there are more than two fuzzy level boundaries (as defined at page 4, last paragraph and at page 5, last paragraph and at page 5, last paragraph and at page 4, last paragraph and at page 5, last paragraph).

Further, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in independent claim 40, including: a "generation" of values for the trial input variables (as defined at page 4, last full paragraph and at page 5, first full paragraph and at page 6, first three paragraphs and at page 8, last full paragraph), a "solution" to produce a meta model (as defined at page 3, first full paragraph and at page 4, last full paragraph and at page 5, last full paragraph and at page 6, second full paragraph and at page 8, last full paragraph), an "identification" of fuzzy level placement (as defined at page 5, last full paragraph and at page 6, first two full paragraphs and at page 9, first full paragraph), a "categorizing" of fuzzy level placements as positive or negative correlation (as defined at page 1, first full paragraph at page 3, second paragraph and at page 6, middle two paragraphs and at page 7, last two paragraphs), a "categorizing" of the magnitude of fuzzy level placements when there are more than two fuzzy level boundaries (as defined at page 4, last paragraph and at page 5, last paragraph).

Further, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in independent claim 41, including: a "generation" of values for the trial input variables (as defined at page 4, last full paragraph and at page 5, first full paragraph and at page 6, first three paragraphs and at page 8, last full paragraph), a "solution" to produce a meta model (as defined at page 3, first full paragraph and at page 4, last full paragraph and at page 5, last full paragraph and at page 6, second full paragraph and at page 8, last full paragraph), an "identification" of fuzzy level placement (as defined at page 5, last full paragraph and at

Art Unit: 2129

page 6, first two full paragraphs and at page 9, first full paragraph), a "categorizing" of fuzzy level placements as positive or negative correlation (as defined at page 1, first full paragraph at page 3, second paragraph and at page 6, middle two paragraphs and at page 7, last two paragraphs), a "categorizing" of the magnitude of fuzzy level placements when there are more than two fuzzy level boundaries (as defined at page 4, last paragraph and at page 5, last paragraph).

Further, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in independent claim 42, including: a "generation" of values for the trial input variables (as defined at page 4, last full paragraph and at page 5, first full paragraph and at page 6, first three paragraphs and at page 8, last full paragraph), a "solution" to produce a meta model (as defined at page 3, first full paragraph and at page 4, last full paragraph and at page 5, last full paragraph and at page 6, second full paragraph and at page 8, last full paragraph), an "identification" of fuzzy level placement (as defined at page 5, last full paragraph and at page 6, first two full paragraphs and at page 9, first full paragraph), a "categorizing" of fuzzy level placements as positive or negative correlation (as defined at page 1, first full paragraph at page 3, second paragraph and at page 6, middle two paragraphs and at page 7, last two paragraphs), a "categorizing" of the magnitude of fuzzy level placements when there are more than two fuzzy level boundaries (as defined at page 4, last paragraph and at page 5, last paragraph).

Only to the extent that these features (specifically as defined above) are not found in the prior art of record is the present case allowable over the prior art.

Conclusion

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Wilbert L. Starks, Jr. whose telephone number is (571) 272-3691.
